

DEPRESSION SCREENING

Hello,

My name is Al Castellanos and I am a licensed insurance agent. Do you know what disease prevention is and why it's important? Well I am here to give you that information. Medicare pays for many preventive services to keep you healthy. These preventive services can find health problems early, when treatment works best, and can keep you from getting certain diseases.

Depression Screening is one of the preventive services that is covered by Medicare.

Who's covered?

All people with Medicare.

How often is it covered?

Medicare covers one depression screening per year. The screening has to be done in a primary care setting (like a doctor's office) that can provide follow-up treatment and referrals.
