

MEDICARE DIABETES PREVENTION PROGRAM

Do you know what disease prevention is and why it's important? Well, we are here to give you that information. Medicare pays for many preventive services to keep you healthy. These preventive services can find health problems early, when treatment works best, and can keep you from getting certain diseases.

Medicare Diabetes Prevention Program is one of the preventive services that is covered by Medicare.

Who's covered?

You must have:

- Medicare Part B
- A hemoglobin A1c test result between 5.7 and 6.4%, a fasting plasma glucose of 110-125 mg/dL, or a 2-hour plasma glucose of 140-199 mg/dL (oral glucose tolerant test) within 12 months of attending the first core session.
- A body mass index (BMI) of 25 or more (BMI of 23 or more if you're Asian).
- Never been diagnosed with type 1 or type 2 diabetes or End-Stage Renal Disease (ESRD).
- Never participated in the Medicare Diabetes Prevention Program.

How often is it covered?

The program begins with 16 core sessions offered in a group setting over a 6-month period. Once you complete the core sessions, you'll get 6 more months of less intensive monthly follow-up sessions to help you maintain healthy habits. You'll also get an additional 12 months of ongoing maintenance sessions if you meet certain weight loss and attendance goals.

Your cost if you have Original Medicare

You pay nothing for these services if eligible.

If you have any questions regarding this exam or any of the other Preventive Service exams covered by Medicare, please contact us at 1 (888) 601-6334 or at contact@medrecen.com.
